

Customer success story:

Medical Teams International gains global solution with Unit4 ERP

Client name

Medical Teams
International

Industry

Not for Profit

Company Size

600+

Headquarters

Tigard, Oregon

The Challenge

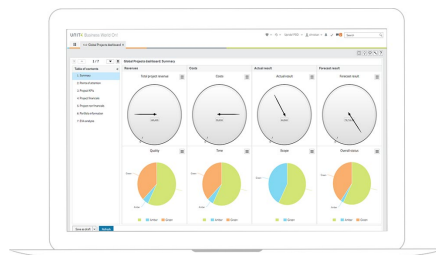

Medical Teams International was founded in 1979 and has been providing life-saving medical care for people in crisis, including the 2020 COVID-19 pandemic.

Medical Teams International selected Unit4 ERP to create a global ERP solution that will bring consistency and efficiency to the organisation wherever they operate, and enhanced support for the rapid deployment of resources where required.

The Solution

Products that we have implemented

Unit4 Cloud ERP

UNIT4

The Results

Enhanced reporting

Accuracy

Efficiency

What are the key takeaways from the project?

Final summary

Medical Teams went live with their Unit4 ERP US client on 1st October 2020. The project started in March 2020 and was completed entirely under COVID-19 restrictions by a team in Portland, Oregon, the UK, Uganda and on occasion, Melbourne, Australia.

With Unit4 ERP, Medical Teams have unlocked a single source of truth, for full transparency throughout their global operations. Their new system also supports their need to quickly deploy resources when necessary, allowing them to focus on what matters - helping people in crises.

Additionally, the provision of consolidated reports of their global operations at the touch of a button ensures that Medical Teams can continue to deliver maximum benefit for the people they help and the donations they receive.

“We are thrilled by what our project team has achieved, despite everything that happened since the project started, we have gone live and can see the huge potential that Unit4 ERP affords us.”

Gayle Rietmulder, CPA - Chief Financial Officer, Medical Teams

About Agilyx

Agilyx delivers unmatched business transformation solutions through the implementation of our leading-edge ERP, PSA, and HCM products and world-class services.
